INTRODUCTORY

WHILE presenting this publication to our friends and patrons, we beg to remind them of the fact that this work is gotten out for the sole purpose of advertising and introducing WOOD & CO'S INKS.

Therefore, if you do not find it as complete in every detail as your other directory, do not condemn it as incorrect as it is impossible to get every one under all the headings of his business.

Also, many people who do not properly belong in a directory of this nature, but who have been kind enough to help the work along by subscribing, have been inserted under a special heading that would not otherwise appear.

As our chief purpose has been to make this work as complete as possible in the lines followed out, it is evident to any fair-minded person, that an accu-

40852

rate list of these people, hidden and scattered as they are, would be impossible where the information is collected simply among the business houses.

Hoping this little volume will be of use to the professional and business men of Louisville, Lexington and vicinity, we remain

Yours respectfully,

Chas. C. Wood & Co.
